INVISION

## ABOUT

I'm a product designer and front-end developer (HTML/CSS) with a passion for user-centered design. I specialize in user experience design, user research, prototyping, and user testing. I'm passionate about building products that have a meaningful impact on people's everyday lives.

## EXPERIENCE

### Tradecraft

PRODUCT DESIGNER

SAN FRANCISCO, CA

MAY 2017 - PRESENT

- Full-time design apprenticeship program that prepares individuals to excel at high-growth startups through a combination of hands-on projects work for startups, curriculum, and mentorship from industry practitioners.

### Neon Labs

PRODUCT DESIGNER

SAN FRANCISCO, CA

FEB. 2013 - APRIL 2016

- Established company's design process and best practices
- Conducted user research to validate product directions; explored UI concepts with rapid prototyping and user testing
- Designed analytics dashboard to display A/B testing data; Collaborated with engineers to build prototype
- Designed internal tool to search through thousands of images generated by product

### Neon Labs
